ADMISSION SCORES OF THE USMA CLASS OF 1977

Report No. 9B1.01-74-016
Project No. 166
Prepared by: Mr. John W. Houston
January 1974

ABSTRACT

The purpose of this report is to bring together, for research and information purposes, the summary statistics of the admission scores of the candidates and cadets--Class of 1977. The distributions of scores are shown for six (6) categories of candidates, including decliners and minority group members; and four (4) categories of admitted cadets, including Negro members, graduates of the US Military Academy Preparatory School, and recruited athletes. Bivariate frequency breakouts (CEER and ACEER versus PAE) are also shown for the same categories of candidates and cadets.

NOTE: Any conclusions in this report are not to be construed as official U. S. Military Academy or Department of the Army positions unless so designated by other authorized documents.

INTRODUCTION

Since many candidates for the Class of 1977 had both College Board Scores and American College Test Scores (CEER and ACEER), each candidate was evaluated for admission using the higher score. However, most candidates have only the CEER or the ACEER.

Tables 1A through 11A show the scores for the various categories of candidates and cadets who were evaluated for admission using CEER.

Tables 1B through 11B show similar scores for those who were evaluated using ACEER. For example, Table 4A shows the scores of the 941 cadets who were admitted using CEER, and Table 4B shows the scores of the 435 cadets who were admitted using ACEER. The sum of these two gives the total of the admitted class: 1376. If a candidate took both the College Board tests and the American College Testing Assessment Program tests, both scores are included in Table 1C.

Tables 12A through 21A give frequency breakouts on CEER and PAE scores for candidates to the Class of 1977 who were evaluated for admission using CEER. Tables 12B through 21B give similar breakouts on ACEER and PAE scores for candidates to the Class of 1977 who were evaluated for admission using ACEER. Percentages on each table represent the percent of the total to be found in each of the nine cells.

All data were obtained from the Pre-cadet Master File.

The following abbreviations apply to this report:

- ACEER: A weighted composite score of three ACT tests and a standardized High School Rank score.
- ACT-EN: American College Test, English.
- ACT-MA: American College Test, Mathematics.
- ACT-NA: American College Test, Natural Science.
- CEER: A weighted composite score of four College Entrance Examination Board tests and a standardized High School Rank score.
- ENG-A: English Achievement (or English Composition).
- HSR: High School Rank, a score derived by converting the actual high school rank to a standard score.
- LPS: Leadership Potential Score.
- MATH-A: Mathematics Achievement.
- PAE: Physical Aptitude Examination.
- SAT-M: Scholastic Aptitude Test-Mathematics.
- SAT-V: Scholastic Aptitude Test-Verbal.
- WMS: Whole Man Score, a weighted composite score of the CEER (or ACEER), LPS and PAE.

13. ABSTRACT The purpose of this report is to bring together, for research and information purposes, the summary statistics of the admission scores of the candidates and cadets-- Class of 1977. The distributions of scores are shown for six (6) categories of candidates, including decliners and minority group members; and four (4) categories of admitted cadets, including Negro members, graduates of the US Military Academy Preparatory School, and recruited athletes. Bivariate frequency breakouts (CEER and ACEER versus PAE) are also shown for the same categories of candidates and cadets.
